TECHPULSE NEWS

Your Partner in Marking, Welding & Automation Solutions.

As a leading provider of industrial marking, welding, and automation solutions, we are proud to serve the nation's growing manufacturing sector with innovation, precision, and performance. Our technologies—ranging from laser marking and dot pin systems to special purpose machines and custom automation—are trusted by industries including automotive, electrical, tooling, fabrication, and OEMs.

With a strong in-house R&D team and a commitment to the Make in India vision, AVTAC continues to deliver smart, reliable, and future-ready solutions that empower progress.

In this edition, we bring you exclusive highlights from the Indus Tech Expo 2025, product showcases, team updates, and insights into what's next for the world of industrial technology

Our participation at the Indus Tech Machine Tools & Automation Expo (18–20 June 2025) at Ark Hotel & Convention Centre, Rudrapur (UK) was a grand success!

From live demos to insightful conversations, the expo was an incredible opportunity to showcase our innovations. A special highlight was the visit from Shree Shiv Singh Arora Ji (MLA – 66 Rudrapur), who appreciated our contribution to the Make in India initiative.

Our most engaging technologies at the stall:

- 1.AVTAC 30W & 50W Handheld Laser Marking Machines.
- 2.Dot Pin Marking Systems for Industrial Engraving.
- 3.Laser Welding & Cutting Machines.
- 4.SPM Solutions – Customized for Your Needs.
- 5.Automation Tools for Enhanced Precision & Productivity.

We applaud our technical and marketing teams for making this event a resounding success. From machine setup to client handling, your dedication and precision represented AVTAC's values at their finest.

We Appreciate You, Thank you to every visitor, partner, and supporter who joined us at the expo. We look forward to collaborating with you on cutting-edge solutions that shape the future of manufacturing.

”

Making an Impact at Indus Tech Expo.
