

WELCOME TO OUR 10th Mach-Auto, Pragati Maidan, Delhi 2025 Newsletter

Event Recap

That's a wrap! 4 incredible days of innovation, live demos, and meaningful industry connections at MACH AUTO 2025 have come to an end – and what a journey it's been!

From showcasing our advanced Laser Marking, Dot Peen, and Laser Welding Machines to interacting with engineers, manufacturers, and business owners from across the country – this expo gave us the perfect platform to present what AVTAC stands for: precision, performance, and progress.

A heartfelt thank you to everyone who visited Hall 06 | Stall C4, explored our machines, asked questions, and shared insights.

In this newsletter you will find:

Highlights from the event, Machines we showcased, Visitor feedback & demo sessions more, How to reach out for collaboration.

Live Machine Demos

WE DEMONSTRATED LIVE USE-CASES USING CLIENT SAMPLES ON:

- Laser Marking Systems
- Automated Dot Peen Technology
- Laser Welding

Visitors were encouraged to bring their own product samples, which we marked on-site – providing instant proof of machine capability and real-time results.

These sessions helped customers:

- Understand machine usability and UI.
- See marking quality live
- Compare speed, accuracy & durability.
- Interact directly with AVTAC's technical team.

We were honored to host several industrial experts, plant heads, and decision-makers at our stall during MACH AUTO 2025.

Their curiosity, feedback, and discussions were a testament to the growing demand for smart manufacturing solutions.
